

The North Bank of the River Thames in central London is home to many of the capital's most significant buildings, many of which are instantly recognisable. *London's North Bank in 50 Buildings* highlights the remarkable buildings bordering the north side of the River Thames between Vauxhall Bridge and Tower Bridge. Interspersed with instantly recognisable landmarks including Tate Britain, the Palace of Westminster, Charing Cross station, the Savoy Hotel and the Tower of London, many overlooked architectural treasures such as the ICI and Unilever HQs, Millbank Tower, 'Big Benzene', Trinity House and even a cabmen's shelter are also revealed.

All of these buildings have fascinating origins and eye-catching detail, and new research by award-winning London Blue Badge guide Rachel Kolsky combines with Louis Berk's professional-standard photography to bring them a refreshing new perspective. This book will appeal to all those with an interest in the city, residents and visitors alike, who enjoy walking alongside London's river highway and are eager to make new discoveries.
